Secretary, A.G. Kawamura
California Department of Food and Agriculture

Honorable Mayor Gavin Newsom
Edwin Lee, City Administrator
Honorable San Francisco Board of Supervisors

In compliance with the provisions of Section 2279 of the California Food and Agricultural Code, I respectfully submit this report of the agricultural production for the City and County of San Francisco for the calendar year 2006. This report deals with gross value of production and does not reflect the net farm income or cost of production and marketing.

It is important to note that although San Francisco County's production is only a small fraction of California's total agricultural production, it nevertheless has a very important role in sustaining California agriculture and protecting the environment. Preventing the spread of injurious agricultural pests and diseases is a critical role for our City and County because of its large population and complex food distribution system. San Francisco also plays a critical role in promoting our regional producers as well as supporting healthy nutrition for all of our citizens.

I wish to acknowledge the many individuals who contributed information in compiling this report. I would especially like to recognize Rhodora Lino, Bill Coppenheaver and Elena Kaledina for the special assistance in producing this report.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott T. Paulsen".

Scott T. Paulsen
Agricultural Commissioner
