

Stanislaus County Department of Agriculture 2009 Annual Crop Report

The Honorable Board of Supervisors County of Stanislaus

Bill O'Brien Supervisor District 1
Vito Chiesa Supervisor District 2
Jeff Grover, Chairman Supervisor District 3
Dick Monteith, Vice-Chairman Supervisor District 4
Jim DeMartini Supervisor District 5

Richard W. Robinson Chief Executive Officer

Gary Caseri Agricultural Commissioner/Sealer June 29, 2010

To:

A. G. Kawamura, Secretary
California Department of Food and Agriculture

The Honorable Board of Supervisors of Stanislaus County

Jeff Grover, Chair, Third District Bill O'Brien, First District Vito Chiesa, Second District Dick Monteith, Fourth District Jim DeMartini, Fifth District

Richard W. Robinson, Chief Executive Officer

I am pleased to submit, in accordance with Section 2279 of the California Food and Agricultural Code, Stanislaus County's Annual Crop and Livestock Report for 2009. This report provides a statistical description of Stanislaus County's agricultural production. I must emphasize that this report represents **gross values** of agricultural commodities and does not reflect production costs or profits.

The value of agricultural commodities produced last year in Stanislaus County decreased by 7% to \$2,310,070,000. This represents a decrease of \$163,773,000 from the 2008 gross production value of \$2,473,843,000. This is primarily attributed to a general decrease in prices; however, fluctuation in acreage, economic hardships and water concerns played a factor. Most notable increases were the Tomatoes category that increased by \$62,158,000 or a 104% gain, and the Chickens category that increased by \$52,537,000 or a 23% increase. On the downside, Milk suffered the most significant loss, which can be attributed to a drastic drop in price throughout the 2009 calendar year for both fluid milk and milk manufactured products.

I wish to express my appreciation to agricultural producers, industry representatives and public agencies who have cooperated in providing data for this report. I would also like to express sincere thanks to the Agricultural Commissioner staff, especially Agricultural Inspector Michael Terra who compiled the report, and Cynthia Darmstandler who prepared the information for publication.

Respectfully,

GARY CASERI

Agricultural Commissioner/Sealer Department of Agriculture

Stanislaus County

ED PERRY

County Director

Stanislaus County Export Products 2009

Almonds 65%, Walnuts 26%, Tomatoes 4%, Melons 2%, Dried Beans 1%, Miscellaneous 2%

The Export Certification program, one of the most important programs run by the Agricultural Commissioner's Office, allows our farmers to ship their product throughout the world. Agriculture, Stanislaus County's number one industry, brings in billions of dollars in revenue by the exportation of product to the world market. In the year 2009, our staff issued 8,947 Phytosanitary Certificates for over a hundred commodities. Phytosanitary Certificates are issued to indicate that consignments of plants, plant products or other regulated articles meet the specified import requirements of the destination country. Our export program is an industry-funded program.

Yellow Panel Trap

Pest Detection & Emergency Projects 2009

To protect the agricultural and horticultural industries in Stanislaus County, various traps are placed to monitor for specific insects. Trapping allows for the possible early detection of invasive and destructive pests that would be detrimental to our economy, the environment, and our health.

County Trapper Hanging Trap

Pest	# of Traps	Crops Affected
Mediterranean Fruit Fly	387	Walnut, tomato, apple, almond, plum, peach, nectarine, pear, grape, orange, lemon, grapefruit, fig, pomegranate, kumquat and olive
Mexican Fruit Fly	242	Apple, apricot, citrus, pear, plum, peach, nectarine and pomegranate
General Fruit Fly	88	Citrus, stone fruit and pome fruit
Light Brown Apple Moth	438	Alfalfa, almond, apple, berries, broccoli, citrus, corn, grape, olive, stone fruit and tomatoes
Japanese Beetle	207	Turf and roses
Gypsy Moth	220	Most trees
Oriental Fruit Fly	242	Apple, citrus, cucumber, fig, grape, pear, pomegranate, stone fruit, tomato and walnut
Melon Fly	242	Peaches, oranges, beans, tomato, cucumber, apple, cantaloupe, grape, pear and watermelon
Glassy-winged Sharpshooter	1,391	Grape, almond, peach and citrus / vector for Pierce's Disease
Apple Maggot	48	Stone fruit and pome fruit
Vine Mealybug	36	Grapes
Citrus Leafminer	7	Citrus
Khapra Beatle	223	Grain and grain products
European Corn Borer	7	Corn, potatoes, oat, green bean, and rhubarb
Asian Citrus Psyllid	17	Citrus
Red Imported Fire Ant	Survey & Treat	May infest agricultural and residential settings, as well as natural habitats-dangerous to children, pets, elderly and wildlife

Year	Inspections
2009	1,398
2008	1,942

Our survey includes traps to check for the Glassy-winged Sharpshooter (GWSS). Traps are set out at nurseries and residential sites, and inspections are done of all incoming plant shipments originating from GWSS infested counties.

4	# of Finds	Pest Found
1	227	Citrus Leafminer
, V	12	GWSS Egg Mass
